Strike Talks Are Extended

Goldberg Wins a Delay Of Additional 2 Hours

WASHINGTON (AP)—Secretary of Labor Arthur J. Goldberg today won a two-hour extension of time for an attempt to negotiate settlement of the flight engineers strike.

The agreement on more time for negotiations was announced by White House press secretary Pierre Salinger a few minutes before a previously agreed deadline—noon EST today.

All the struck airlines except Western, a Pacific coast operator, had agreed to temporary settlement terms.

The engineers union was standing pat on a refusal to enter an agreement unless Western went along.

The other affected carriers had said they would pull out of the settlement unless the men were ready to go back to work at noon.

Salinger announced that Goldberg had won an agreement from the industry for an extension of the deadline to 2 p.m.

At the time of his announcement, Salinger said Goldberg was attempting to reach the president of Western Airlines by telephone in an effort to persuade Western to go along with the other companies.

Salinger said it was his understanding that if Western were to make such a commitment, the strike could be settled swiftly.

Goldberg had planned a visit to the White House to report to President Kennedy on settlement efforts. That was put off until after the new deadline.

White House sources said earlier that Kennedy had been advised of the prospect that a settlement could be reached if Western joined in.

Asks Belgium To Withdraw Congo Troops

UN Resolution Seeks Immediate Move by Military

UNITED NATIONS, N.Y. (AP) —A letter from the United Nations to Belgium today sought her help in getting Belgian military personnel and political advisers out of the Congo.

Secretary-General Dag Hammarskjold addressed the letter to Belgium's ambassador at the U.N., Walter Loridan, and incorporated in its suggestions from his advisory committee on the Congo.

The letter asked Belgium's aid in carrying out the Security Council's latest Congo resolution, urging immediate withdrawal from the Congo of "Belgian and other foreign" military men and political advisers not serving with the U.N. force and calling on all countries to prevent such personnel from going to the Congo.

It also empowered the United Nations to use force if needed to head off civil war in the Congo, called for an investigation of deposed Premier Patrice Lumumba's slaying and urged that the Congo Parliament be convened and Congolese troops reorganized and removed from politics.

Both Premier Joseph Ileo of the new central government in Leopoldville and President Moise Tshombe of Katanga Province defied the council resolution. But Tshombe eased his defiance somewhat Wednesday with an announcement that he and the U.N. command in Katanga had agreed to halt all troop movements "likely to lead to friction" between their respective forces.

Surplus Food Program Wins a Battle

JEFFERSON CITY (AP)—A bill to set up a statewide surplus food distribution program survived one test Wednesday but only after it had been limited to fit Gov. John M. Dalton's ideas.

Originally the bill would have put the cost of any surplus food program on a 50-50 basis—half by the state and half by local government units. That would have been a permanent program.

The bill went to the Senate's new Committee on Economics, a screening committee that passes on new state expenditures.

The group conferred with the governor, who has opposed any state participation in a surplus food program in St. Louis, where unemployment has passed 70,000.

Dalton said he told the committee it would be up to the legislature to decide on the bill, since it represents a new state policy.

But he said it would be more acceptable to him if any food distribution plan were limited to one year.

The Economics Committee then put on a one-year limit and sent the bill to the Senate Committee on Local Government for public hearings, possibly next week.

Dalton pointed out that nine counties, including St. Louis County, now distribute federal surplus food to the needy but all of them bear the costs of distribution. He said that has been the traditional state policy and if there is a local problem in St. Louis, the city should assume the cost.

The governor said he told the committee that if a critical statewide situation develops from increased unemployment, he would call a special session of the legislature to deal with it later.

Two More Judges Sought for State

WASHINGTON (AP) — Two more federal judges for Missouri would be authorized under a bill introduced Wednesday by Senators Long and Symington of Missouri.

One would be for the western district and the other for the eastern district. The state now has six, two of whom having roving assignments.

No recommendations for additional judges in Missouri were made by Attorney General Kennedy in a bill he asked Congress to approve.

POWER—These two huge transformers, which dwarf the workmen loading them on a "low boy," arrived by rail this week and were transported to their permanent stations at the new Missouri Public Service (MPSC) facility being constructed on West 16th Street Road. The facility involves the construction of a 160,000 volt transmission line between Sedalia and Clinton, with the station near Sedalia. This and other work by MPSC will make Sedalia one of the best equipped cities — electrically — in the state. (Democrat-Capital photo).

Labor Unions Are Hard Hit By Recession

Million Members Stop Paying Dues; Union Costs Up

MIAMI BEACH, Fla. (AP) — The business recession is hitting hard at organized labor's own management operations. A drop of about one million dues-paying members has forced the AFL-CIO to retrench.

Federation leaders said privately today that, like many businessmen, they are going to have to adopt economies and get more revenue to keep their big labor organization out of the red.

Lagging employment has reduced AFL-CIO dues paying membership from about 13.5 million to about 12.5 million, it was said. Members out of work don't pay regular dues.

Also, while dues revenue has been declining, union expenses have been increasing.

The retrenchment program is expected to result in some layoffs on the AFL-CIO headquarters staff in Washington as well as a tighter rein on donations to various causes which have been running to over $1 million each year.

The AFL-CIO Executive Council also was expected to levy a temporary special assessment of two cents per member on affiliated unions in order to counter a general fund deficit that has climbed to about $700,000 in the past eight months.

Colder Weather Headed Our Way

KANSAS CITY (AP) — Much colder weather is moving towards Missouri.

The change will be felt first in the northwest this afternoon and tonight. The lows by morning are expected to hit the 20-25 range in the north and 23-32 in most of the rest of the state, except in the Bootheel where the mercury will be in the mid 30s.

Highs Friday will be in the lower or mid 30s northwest and 38 to 50 elsewhere.

Minister Is Roughed Up At Stand-in

By THE ASSOCIATED PRESS

A Negro minister was roughed up but not seriously injured as white youths used force in attempting to break up theater stand-ins by Nashville Negro students.

The number of demonstrators seeking entrance to four downtown, all-white theaters grew to 120 Wednesday night as Negroes were joined by Chinese and Mexican boys and several white coeds.

This group was attacked by the white youths in the same manner as the previous night. The police had dispersed the mob of white youths, but they gathered again to beat and kick the demonstrators as they headed for their church meeting place.

Three demonstrators were treated for minor injuries. The minister manhandled by the white boys was the Rev. Metz Collins of United Presbyterian Church.

Police made no arrests in either of the Nashville affrays.

Negro students in Columbia, S. C., picketed in the state capital and in front of a drugstore whre five Benedict College students had been arrested and charged with trespassing for attempting to enter despite a "no trespassing" sign.

In Sumter, S. C., where police arrested 65 Negroes on Tuesday during a mass march and numerous sit-ins, a meeting was held to discuss the demonstrations and charges of police brutality.

From Rep. Steelman

Dalton 'Methods' Draw Criticism

JEFFERSON CITY (AP) — Rep. Dorman L. Steelman, R - Dent County, the minority floor leader in the House who fought vainly against Gov. John M. Dalton's withholding system of collecting the state income tax, issued a statement Wednesday night criticizing what he called steamroller methods.

"Never before in my legislative experience have I seen such absurd and ridiculous pressure tactics used in the Missouri House of Representatives," he said of the near pandemonium that accompanied final passage of the bill Wednesday.

"At times there was literally chaos as Democrat members were dragged to the floor of the House in behalf of the bill," Steelman said. "On a roll call vote, the speaker, (Rep. Thomas D. Graham, D-Cole County) did not declare the final vote on the emergency clause until after more than 22 minutes had elapsed. This, in all probability is a record."

The bill, passed 87-63, would require Missouri employers to deduct their workers' state income tax each pay day, just as they do now on the federal income tax. Dalton has said it would increase income tax revenue by at least $6 million a year, by forcing tax payments from those who now evade it.

The sponsors even managed to get the 105 votes necessary to make the bill effective whenever it receives Senate passage and signing by the governor. That could put the new system into operation by the start of the new fiscal year July 1.

Some Democrats stood fast against the Democratic governor's bill. Rep. Gene Sally, D-Phelps County, was one. A few hours after that the House killed a bill of his on a lopsided vote.

The bill, eliminating stop arms on small school buses, passed the House two years ago on a 104-6 vote.

Smith Move Gets Kennedy Off the Hook

Withdraws Name As Ambassador To Switzerland

WASHINGTON (AP)—Earl E. T. Smith, Palm Beach financier, has asked President Kennedy to withdraw his name as ambassador to Switzerland. He thus got Kennedy off a diplomatic hook.

Smith's appointment, never formally announced, was criticized strongly in the Swiss press. It drew some adverse comment at home, too.

A Republican, Smith was ambassador to Cuba in the Eisenhower administration until just after Fidel Castro took over. He was quickly replaced there by a career diplomat.

Castro said Smith was too friendly with Fulgencio Batista, the dictator Castro overthrew.

Since the United States broke diplomatic relations with Cuba recently, the Swiss have been handling U. S. interests in Havana at U. S. request. Much of the Swiss criticism apparently centered on this factor—that the new appointment of Smith might cause embarrassment and difficulty in carrying out these duties for the United States.

To View Defense Picture

Committee Wants to Hear About 'Gaps'

WASHINGTON— (AP) — The Pentagon's top officials were summoned today to paint for a House committee the nation's defense picture as the Kennedy administration views it.

Secretary of Defense Robert S. McNamara and Gen. Lyman L. Lemnitzer, chairman of the Joint Chiefs of Staff, were called for the close session by Rep. Carl Vinson, D-Ga., veteran chairman of the House Armed Services Committee.

In issuing the invitation, Vinson pointedly suggested that McNamara talk about "missile gaps or any other gaps he has on his mind."

McNamara recently was quoted as saying there was no missile gap with this country trailing the Soviet Union.

That put President Kennedy on the spot, because he had made a major campaign issue out of the alleged missile gap. The President said when asked about McNamara's statement that no studies had been completed as yet on the problem. McNamara also said in later statements that the studies still were under way.

In the Senate Wednesday Sen. Stuart Symington, D-Mo., said there is no question the administration thinks the United States is behind the Soviet Union in missile power and is doing something to close the gap.

Symington has charged that the Soviets have a 3 to 1 edge in long range missiles and said two Eisenhower defense secretaries—Neil H. McElroy and Thomas S. Gates Jr.—had conceded this.

Army Spokesman Says

No Taxpayer Cash In Club Expansion

PARIS (AP)—A spokesman at U. S. Army European Command (Eucom) headquarters said today no taxpayers money had been earmarked for an expansion and remodeling job at its officers' club.

The spokesman said the cost of been paid for from the $5 monthly by club dues and profits.

President Kennedy killed plans Tuesday to expand the club. It was part of Kennedy's program to help curb the outflow of dollars which has strained the U. S. balance of payments. Kennedy said he acted after receiving information about the club project from an unidentified woman.

Reports from Washington said the project was to have cost $200,000. Officials at Eucom refused to confirm or deny the figure.

A spokesman said the woman must have been acting on inaccurate information when she suggested part of the money for the improvement project was coming from government funds. Instead, he said, the project was to have been paid for from the $ 5 monthly dues paid by club members and from club profits, realized from sale of drinks and meals and slot machine profits.

The spokesman made these other points in answer to a reporter's question:

Repair work on the club is necessary from a sanitary standpoint. The plumbing is leaking and there are holes in the ceiling and walls of the club.

The club is too small to accommodate the 376 dues-paying members from Eucom headquarters and the slightly more than 400 officers who use the club from the Seine area command. The club can accommodate about 300 persons at meals.

The only other facility for feeding officers at the base is a snack bar at the post exchange. He said that if the officers were forced to go off the base to nearby St. Germain to eat, the money would go into the French economy instead of being spent on the base. That, he said, would increase the dollar drain.

The club is a one-story building with a small entnrance way, a bar with several slot machines, an eating area and a kitchen.

Contract Awarded For Air Base Work

A $502,579 contract for work at Whiteman Air Force Base was awarded today to the Sharp Bros. Construction Co. of Kansas City by the Army Engineers.

The work will include runway extension and approach lighting and the contractor will have 180 calendar days to complete the project.

Byrd Sparks Opposition To Aid Plan

Says It Will Pave Way for Colossal School Spending

WASHINGTON (AP)—Sen. Harry F. Byrd, D-Va., sparked fresh Southern opposition to President Kennedy's aid to education program with the assertion today that it will open a back door to school integration.

Byrd said he is convinced after an analysis of Kennedy's proposals for federal educational grants to states to spend as they see fit that the program will "pave the way for the most colossal sort of expenditures."

But even more distasteful to him, he said in an interview, is what he regards as the probability that Congress eventually may require school desegregation in all states accepting federal funds.

"No one can guarantee that there will not be federal efforts to control our schools to this extent," Byrd said.

"Any bill Congress passes now may not carry a desegregation provision. But there is real danger that on some future bill appropriating the money to make the payments to the states a rider may be attached saying that no funds shall go to any state which does not desegregate its schools."

Mercury Capsule Returns to Cape

CAPE CANAVERAL, Fla. (AP) —A Project Mercury man-in-space capsule, apparently in excellent condition after a punishing rocket ride, was returned here today for minute examination.

Scientists and engineers eagerly studied the one-ton space cabin. After a quick examination, one commented: "Except for the scorching, it looks just like it came from the factory."

The metal body of the vehicle had been blackened by the 3,000-degree re-entry heat during the 12,850-mile-an-hour trip Tuesday. Otherwise, it seemed in good condition. A helicopter plucked it from the Atlantic.

No Grand Jury Call At the Present Time

Investigation To Continue For a While

May Decide Later To Seek Help In Arson Case Check

The probability of a grand jury being called in relation to the attempted arson of the Gordon Building, Feb. 12, has been discussed by local peace officers and the prosecuting attorney, but the idea has been shelved for the present time, according to Prosecuting Attorney J. R. Fritz.

Fritz told The Democrat Thursday morning, "Sheriff Emmett Fairfax and I have discussed the idea of calling a Grand Jury, and I have talked the matter over with Circuit Judge Frank Hayes. We feel that as long as the peace officers are investigating the matter, and as long as they feel they are making progress, a Grand Jury should not be called."

Fritz said that if the investigation by the officers ran into a "stone wall," then the idea of calling a Grand Jury might be brought up again.

Fairfax said the investigation being conducted by the Sheriff's office in conjunction with local police and law enforcement agencies in the Kansas City area may pay off. He revealed that the investigation is taking in

Speed Limit Gets Senate Okay Today

JEFFERSON CITY (AP)—The Senate voted 26-0 today to make the state's 70-mile an hour top speed law permanent. The bill now goes to the House.

Unless the bill is passed, the 1957 speed law will expire Sept. 1.

Passed and sent to the governor was a House approved bill to give the city of Canton the right to condemn land for flood control levees and construction of an electrical power plant.

Among new bills were measures to:

Deny state aid to high schools with less than 100 pupils.

Grant an easement to Panhandle Eastern Pipe Line Co. across the grounds of the new medium security prison being built near Moberly.

Make it unnecessary for a person to file a state income tax return if he owes no tax.

Let a student transfer to another high school to get courses not offered in his home district.

In the House, Rep. Luke A. Knese, D-St. Louis, introduced a bill to create a special interagency committee on children's services for handicapped children and youth. The committee would have the job of studying present or prospective children's services and recommending improvements.

Also introduced were measures to:

Change the constitution so a simple majority of the voters in any school district can authorize indebtedness up to 10 per cent of the district's assessed valuation. A two-thirds majority is required now. Many times such bond elections have to be repeated before the bonds are approved.

A Hungry Burglar Burglarizes Store

An obviously hungry bandit, with a liking for an after dinner cigarette, reportedly burglarized the Chevalier Store at the intersection of Highways 127 and 50 near LaMonte sometime Tuesday night, according to Pettis County Deputy Sheriff Jack Couts.

Reported missing from the store were quantities of cheese, salami, baloney, sausage, cup cakes and between 12 and 14 cartons of cigarettes. . . No money.

Couts said the robbery was discovered by the Chevaliers when they opened up Wednesday morning. He reported entrance to the store was gained by forcing a rear door. Other information obtained is being investigated.

This Man Tried It

Selling Fly Spray During Depression Was a Big Job

By FRANCIS STILLEY

NEW YORK (AP) — What do you figure would be the toughest kind of job in the world?

How about trying to sell fly spray to farmers at the height of the great depression, when hardly anybody could buy anything?

An old hoecake country boy named Fred Grove, who now writes books of Western yarns from his Rancho Grande at Norman, Okla., tried the spray line and would rather plow an 880-acre farm with a broken-down mule.

Fred recalls it—all too well—as if it were only yesterday, and here is how he tells it:

"You drive up to the farmhouse slowly, careful to close all gates and not run over any fryers or hound dogs.

"Your prospect, a stout, middle-aged man with skeptical blue eyes, would likely be out in the cow lot. Busy, of course, but summer heat made it easy to stop and talk a while in the shade.

"The fly spray salesman who ate regularly never hurried or put on uppity airs. He was a folksy type, true blue for the Constitution, a strong weather-talker and never used hyphenated cusswords. He'd mumble 'Don't mind if'n I do' when offered a chaw of terbacker.

"He'd then proceed to anoint sunflowers with astonishing accuracy, and perhaps allow as how 'the rich 'uns is livin' off the farmers.'

"By and by, the farmer would ask: 'What kind o' dope you got in that blue can, young sprout?' Then:

"It's a plumb new insectitide, sir. Called Whizbang. Made down in Tulsa. Kills a fly in open air. Right here!"

"Most ours are in the barn."

"It's also mighty handy for cleaning wash tubs and woodwork."

"Ma does that."

"Its uses are just about unlimited, sir. Kills lice on hogs."

"Young feller, my hogs don't have no lice."

"Oh, I meant just in case the lice did get ahold of them. I can see you sure keep a mighty clean place here. Course, this here Whizbang's plenty handy for burnin' off hen roosts and gettin' rid of wasp nests."

"Always keep my hen house clean. Don't give a dang about the wasps."

"Now sir, I want to show you something. I'd like to spray one of your best milkers. Modesty compels me to omit the name of my competitors, because they ain't worth a hoot anyway. Watch those flies fall as I squirt this fine lookin' Jersey. Now see me squirt it on my shirt. If it won't stain my shirt it ain't gonna hurt a hair on your cow. May I take your order for five gallons sir?"

"W-a-l-l-l, now I don' just know 'bout that. Tell you what. It's nigh onto noontime now. I think ma's probably got the table set so you come on up wih me and let's try out the vittles."

Fred says nobody ever sold enough fly spray that way to get rich, but a fellow got some pretty fair groceries—sometimes.

Members Loss Forces Union To Retrench

Whoops Greet Opening Of New Comedy

By WILLIAM GLOVER
Associated Press Drama Critic

NEW YORK (AP) — "Come Blow Your Horn" is Broadway's new remedy for ailing funnybones.

Whoops of glee greeted the mixture of nonsense and gags in debut Wednesday night at the Brooks Atkinson Theater. Mirth dispensers in the cast include Hal March, Warren Berlinger, Lou Jacobi, Pert Kelton and Sarah Marshall.

The comedy, a kingsize portion of those domestic tangles so favored on the TV networks, is authored by author Neil Simon who has written sketches for Sid Caesar, Phil Silvers and Garry Moore.

In this first White Way sortie, Simon comes up with high pressure fun sufficient to keep the farce balloon neatly aloft. And Stanley Prager, as director handles lines and cast with rib-tickling vigor.

The story concerns a pair of brothers, aged 33 (March) and 21 (Berlinger), out on the town in defiance of old-fashioned parental authority and the threat of matrimony.

Jacobi and Miss Kelton perform the elders with unerring comic sense that retains an underlying sympathy for the homemaking generation. As the romantic focus, Miss Marshall never becomes much more than an attractive stock character.

The setting for the William Hammerstein-Michael Ellis production by Ralph Alswang is a handsome East Side Manhattan bachelor den. The costumes by Stanley Simmons are very, very contemporary.

Summing up: Nifty nonsense.

Suspend Group Of Students Who Sing for George

TWIN FALLS, Idaho (AP) — Twenty-five Twin Falls High School students thought it highly inappropriate to have to attend classes Wednesday. So they didn't. They sat in a corridor and sang "Happy Birthday" to George Washington, the nation's first president, on his birthday anniversary.

Principal James Paluska suspended them.

It started when somebody put the school's bell system out of commission. About a fourth of the 1,100 students didn't go to first-period classes on time. They heard no bell.

Some started singing the birthday song. The principal had the students advised that school had started. Most returned. Those who didn't were suspended until Monday.

Youths Caught Easily After Stealing 'Gas'

SPRINGFIELD, Ill. (AP)—Oren Thompson summoned the sheriff to his farm home to apprehend thieves who had filched gasoline from his tractor fuel tanks.

They'll be somewhere nearby, he assured Sheriff Hugh Campbell Monday night.

Sure enough, down the road about a mile, Campbell came upon four youths in an auto stalled with four flat tires and a conked out engine.

The farmer told Campbell he had been laying for gasoline thieves. He set a trap by placing a plank driven full of spikes in a driveway near the tanks, and switching gasoline to a tank labeled "fuel oil" and fuel oil to a tank labeled "gasoline."

The youths were charged with petty larceny.

State Police Alert For Any Bed Pushers

It appears that pushing beds is the latest collegiate kick — like swallowing goldfish or crowding into telephone booths. The pushing of a bed along a road—any road—is the idea.

Future Nuclear Subs May Never Need Refueling

NASHVILLE, Tenn. (AP)—Nuclear submarines which will never need refueling may be built soon, says Capt. William R. Anderson, former skipper of the nuclear sub Nautilus.

Anderson, who took the Nautilus on its historic trip under the North Pole, gave an interview Wednesday.

"The Nautilus could go 60,000 miles on its first load of fuel," he said. "Before long it will be possible to build a reactor that won't need refueling for the entire life of the ships — maybe 25 years."

Anderson, of Bakersville, Tenn., is now an aid to the secretary of the Navy. He said the most significant recent occurrence regarding nuclear subs was President Kennedy's action in accelerating the Polaris missile program.

BPWC Club Seeks Foreign Pen Pals

In observance of International Relations Week, Feb. 19-25, Mrs. Virginia Gilpin, chairman of the international relations committee of the Business and Professional Women's Club, has asked her committee to secure a pen pal from a foreign country.

Mrs. Gilpin is asking also that members of other committees join with hers in this program to promote better understanding between the women of this country and other countries through letter writing. The names can be obtained, Mrs. Gilpin states, from the Naturalization Council in Kansas City, Mo.

Mrs. Gilpin's committee is also in the process of studying women and their opportunities in Latin American countries.

Soggy South Hoping Rains Are Near End

By the Associated Press

The soggy Southland braced today for its seventh straight rainy day and took hope from a hint that the worst of the rain is over.

But even if the rains end Friday, and that's not certain, flooding from overloaded streams created new problems.

Property damage from high water and tornadoes continued to mount and the number of deaths rose to five early today when two children drowned as a boat evacuating them from a flooded area in Mississippi, capsized.

A teen-age boy drowned at Birmingham when he fell into a rain-swollen pond. Two deaths were attributed to the weather in Louisiana.

More showers were forecast for Mississippi, Alabama and Georgia today but the U.S. Weather Bureau at Birmingham said rainfall should not be as heavy on the western end of the band of weather.

While forecasters in Alabama indicated the rain will continue at least until Friday, the Weather Bureau at New Orleans said rains would end temporarily in Louisiana and Mississippi today and begin anew Friday.

Evacuations continued in several areas of Alabama but in some sections residents chose to stay and battle with the water.

Several Red Cross shelters continued in operation. The number of displaced persons in the Birmingham area rose to about 1,000 early this week but the figure began to shrink Wednesday night.

Tornadoes struck in Georgia, Alabama and Mississippi within a 24-hour period. All caused property damage but no serious injuries.

The Mississippi National Guard used amphibious equipment to evacuate scores of persons from houses in the Hattiesburg area Wednesday night. An estimated 500 persons were displaced there by high water.

Phone Service Knocked Out As A Garage Burns

SPICKARD, Mo. (AP) — Telephone service to more than 50 residents and local busines firms was knocked out today when fire destroyed a garage building.

The cause of the blaze was undetermined. There was no estimate on the loss and no injuries.

The fire was discovered shortly after midnight.

A brick, one-story structure, the garage was believed to have been used only for storage of hay.

Before the blaze was brought under control it severed lines of the Grand River Mutual Telephone Co. office and caused minor damage to the office building.

Spickard's City Hall also suffered minor damage.

Authorities said communications would be handled by radio-telephone until late today when service is expected to be restored.

GOP'S Hopeful Top Speakers Make Occasion

KANSAS CITY (AP)—Missouri Republicans are hopeful the three top speakers will arrive here for their 61st annual Lincoln Day gathering Friday and Saturday despite the uncertainty of airline travel.

Rep. Vernon W. Thomson, former Republican governor of Wisconsin, and Missouri's two Republican representatives, Thomas B. Curtis of St. Louis and Durward G. Hall of Springfield, had planned to fly in from Washington via Trans World Airlines.

Strike-bound TWA is the only airline with direct flights from Washington to Kansas City.

"We are confident they will get here," said L. E. Stollenwreck, chairman of the Jackson County Republican Committee, "but we don't believe they could absent themselves from Congress long enough to travel by train."

"An Outstanding Republican Award" will be made at the session to a party member who has served the party "in the tradition of Abraham Lincoln."

A session for teenagers will be held Saturday morning. They will meet party leaders and the state's two congressmen if the congressmen are able to attend.

BONN, Germany (AP) — West Germany's controversial student dueling fraternities have won a victory — without their swords. The Association of German Student Groups Wednesday approved the duelers for government grants after long blacklisting the fraternities for being influenced by ultra-right-wing elements. The initial government handout to them is $11,900.

• Accidents

Three persons were injured, not seriously, in a one-vehicle accident on U. S. Highway 50 about five miles east of Lee's Summit, Wednesday, when a pickup truck skidded on wet pavement and went out of control. The three are members of a Cole Camp family.

The trio treated by a physician at the St. Luke's hospital in Kansas City were Mrs. Sarah Louise Libeer, 44, her son Jerry Libeer, 14, and Mrs. Libeer's husband Victor Libeer, 54, who was the driver.

According to the State Highway Patrol, the car skidded on the wet pavement, went on to the soft shoulder and into a ditch. The car did not strike any stationary object.

A 1956 Oldsmobile convertible was demolished, but the driver escaped with minor bruises, at 6:30 p.m. Wednesday when the car struck Muddy Creek Bridge in the same spot where three young people lost their lives last Friday evening.

The driver, Thomas Hubert Barker, 23, Whiteman AFB, was taken to the Whiteman Hospital for treatment following the accident.

According to State Highway Patrol Trooper Pete Stohr, the westbound car struck the south abutment of the bridge in the same spot as the 1957 Ford which claimed three teen-agers last Friday night. After striking the bridge abutment, Barker's car slid on the wet pavement, Stohr said, and the rear end hit the southside of the bridge and then the northside, ending up crosswise of the roadway.

The car was towed from the scene by the Parks wrecker.

Johnson County Sheriff William O. Fortney said the burglars entered the store by prying open a sliding door in the rear of the place.

Estimate $45,000 In Warehouse Damages

KANSAS CITY (AP) — Fire caused an estimated $45,000 damage at a two-story brick warehouse of the L. C. Worth Feed Co. at 3110 East 18th Street Wednesday night.

Fire officials said the blaze may have started from a dust explosion.

Calls for extra fire fighting apparatus brought eight pumper trucks and three ladder companies to the fire.

Fire Director James M. Halloran estimated the damage at $25,000 to the building and $20,000 to the contents.

many angles not yet made public, but will be made public if positive results are obtained.

So far the investigation has resulted in the arrest of Frank John Amaro of Kansas City. Amaro was given a lie detector test Monday, which was tagged "inconclusive." Officers have determined the boxes containing the gasoline used in the arson attempt were made in Kansas City, Kan., and are checking on the route of the boxes from the factory to the third floor of the Gordon Building.

As a sidelight to the investigation and as an indication to possible ramifications in other cities, a Sedalian told of a visit to Kansas City Wednesday. The Sedalian said he went to Kansas City to buy a new suit, and tried on suits in five different Kansas City stores. In every store, the Sedalian said, as soon as the clerk learned he was from Sedalia, he immediately asked about the attempted arson of the Gordon Building.

Actually, according to peace officers, attempted arson is the only charge that may be filed, and this charge is punishable by a sentence of from two to five years in prison. "Why all the publicity?" some people are asking. This question was answered by a Kansas City newsman who said Wednesday that the investigation might lead to high levels in the Kansas City area.

In a late development in the case Sheriff Fairfax said Thursday that August Gordon, who manages the Gordon Building for his wife, is scheduled for a conference with the Sheriff Friday. Gordon has retained attorney William F. Brown as his representative in Sedalia for several years.

It was learned Thursday that the arson attempt resulted in some damage to the building, and that this damage is covered by insurance, in a special clause that includes "vandalism and malicious mischief," and that the claim is being adjusted by the General Adjustment Co. W. E. Wilson has been assigned by the insurance companies to make the adjustment. Wilson said Thursday he was assigned the job Wednesday, and has not yet estimated the damage.

Damage was caused by gasoline leaking out of some of the cardboard cartons used in the arson attempt. Some building insurance was cancelled Wednesday.

Another effect of the arson attempt is apparent. One tenant who remarked yesterday: "I don't go to the office on Sunday any more."

The arson attempt was discovered on a Sunday afternoon.

In Arson Attempt Local C. D. Agency Praised for Action

The Sedalia-Pettis County Civil Defense Agency was praised this week for its assistance during the emergency created by the attempted arson at the Gordon Building.

The appreciation was expressed in a letter from Sedalia Mayor Abe Silverman to Frederick H. Bennett, Civil Defense director.

The letter read:

"As Mayor of Sedalia I wish to extend to you and your agency the appreciation of this office, and I'm sure the people of Sedalia, for the splendid cooperation and aid in the prevention and control of the near disaster which befronted our city, February 12th of this year.

"The capabilities and potential of the device found in the Gordon Building would have been disastrous to say the least. Your assistance in roping off the area, aiding in traffic control, and other steps incident to the public safety were of great value."

Optimist Club Hears A&P Meat Cutter

Paul Burke, meat cutter at A & P, gave an informative talk on cuts of meat at the Optimist Club Tuesday noon at Bothwell Hotel.

Many surveys over the country, Burke said, show that 75 per cent more men, over self service meat counters today buy meat than ever before.

Seventy-five per cent of the meat sold, he stated, is beef, with pork, lamb and poultry constituting the other 25 per cent. Locker plants, he continued, cost a lot of money, but they process meat and keep it in good condition the year around. In the olden days, he said, a lot of meat was wasted, but with today's lockers, most of it is used.

Most of the meat comes from the North American continent, with meat also, in great quantities from Argentina and Australia. That is why, he explained there are so many articles on people in countries where they are undernourished. There is little meat in those countries.

Pork, is where you get vitamin B-1.

Cosmetics, drugs and many other things found in a drug store, Burke said, are all from by-products of meat. The meat business in this country is big business, from the little animal on the farm until it is ready for the slaughter house and from there on. The big chain stores, he said, receive only six to seven and a half per cent gross profit in all beef and pork sold. Their profit comes from fish, lunch meats and others.

Burke had posters showing the different cuts of beef, pork and lamb, explaining each as he went along, telling from where each type of cut came and what would be the best for certain purposes.

The speaker was introduced by Frank Mehl, program chairman.

Joe Forsee, vice-president, presided over the meeting, and invocation was given by Fred Arbogast.

Dick Witcig led the singing with Miss Lillian Fox at the piano.

A great deal of fun was provided by Ralph Huff, general program chairman, when he gave away two identical packages, one containing a T-bone steak and the other soup bones. The winner had the privilege of choosing which package he wanted, the other to go to the one who was second place winner. The packages were labeled left and right, and the first place winner chose right, which was wrong, for he got soup bones instead of T-bone steak. The second place winner then got what was left, which was the left package, and the T-bone steak.

What About a Grand Jury?

Soon two weeks will have passed since the attempted arson in the Gordon building. During that time progress of investigation has not yet revealed the perpetrators of the crime. Law enforcement officials both in Sedalia and Kansas City have spent many hours in research, piled up a great amount of statistical information, innumerable leads, and twice as many suspicions, but scarcely anything they can really sink their teeth into for a big bite.

This is nothing new about arson cases here or elsewhere in the country, particularly in Kansas City. Getting a conviction is an exception rather than the rule. The odds against solution of such cases are generally recognized and usually induce public apathy.

Suspecting the Gordon building arson case investigation might ultimately reach the state of suspended animation, Dick Battles, Sedalia merchant, early this week proposed that public indignation over the arson attempt should be kept alive and implemented by a grand jury investigation if necessary.

Dick's theory is that Sedalians should advertise to the Kansas City underworld and to any other individuals or groups with criminal tendencies that their activities in our community will certainly get the full legal treatment. Harlan Snow on KSIS campaigns for this, too.

Sedalia cannot afford to be indifferent to the progress of the arson investigation. Everywhere travelers go from here they encounter questions about what is being done to solve the arson case.

It is possible the law enforcement authorities will run into a half a dozen blind alleys. Enough evidence may not be available to make arrests. This situation may drag on for weeks or months. The maximum effort toward a solution must be made sooner or later, and that suggests a grand jury investigation, not too long delayed.

Such a move has our blessing, whether or not it produces any indictments.

The mere fact that a maximum probe is conducted serves notice on the underworld that their activities here will not easily escape prosecution.

And the worried public may have its lowered morale boosted.

Washington Merry-Go-Round

No 'Loot' For Him, Kennedy Decision

(Editor's Note—Drew Pearson is newsgathering in South America. In his absence his column is being written by his associate, Jack Anderson.)

By JACK ANDERSON

WASHINGTON — President Kennedy has made a quiet decision not to accept the kind of gifts that President Eisenhower stockpiled on his Gettysburg farm.

Kennedy has instructed White House aide Bill Hartigan to return all gifts worth over $25. The rest will be turned over to charity or, in the case of state gifts, will be presented to the Smithsonian Institution.

The President's quiet example is in contrast to Ike's rightoeus crusade of eight years ago. With much clanking of his crusader's armor, Eisenhower vowed to slay the dragon Corruption which had been luxuriating on mink coats, deep freezes, and five per cent commissions.

But the crusade did not extend to the Gettysburg farm which Ike stocked with expensive gifts. He even allowed three oilmen to pay the farm bills and to install permanent improvements including a $30,000 cattle show barn.

Mindful of the painful publicity ex-President Truman had received for accepting a deep freeze, Ike took care to pay out of his own pocket for the farm's three deep freezes. But he saw nothing wrong with accepting an entire electric kitchen from the American kitchen division of AVCO Corp.

Here are some other gifts Ike didn't turn down: $3,000 puting green, orchid-filled greenhouse, 30-foot flagpole, white marble fireplace, farm machinery including a $4,000 Black Hawk tractor with push-button gadgets, television sets, golf carts, hand-tooled saddles, paintings, furniture, bicycles, and ponies for his grandchildren.

No Deep Freeze

Perhaps even more valuable were the prize-winning stallions, bulls, heifers, dogs and chickens he accepted. Or the trees, shrubbery, plants, and free landscaping. But Ike still has the receipts to prove he took no deep freezes.

President Kennedy has converted his commercial stocks and oil holdings into government bonds. Most of his personal wealth, however, is tied up in Chicago's Merchandise Mart, a family-owned enterprise. He hasn't bothered to sell this interest, since it is reasonably remote from the federal government. He is also holding on to his real estate.

President Eisenhower put his investments into an "irrevocable" trust when he entered the White House. But again, this did not include his Gettysburg farm whose upkeep he turned over to three oilmen.

Expensive Friendship

The friendship of two crusty, old Texans has been costing the taxpayers millions. They are: Congressman Fritz Lanham, grizzled and grumpy, now in his 80's, who has been chief lobbyist against patent reforms since he left Congress; and Speaker Sam Rayburn, a character of granite, now 79, who has blocked all patent reforms for the sake of his old pal.

Because of their efforts, the patent office can charge only $60 for processing and granting a patent. Yet the cost to the taxpayers is never less than $200 and sometimes runs up to $10,000.

The argument for keeping patent fees low is to protect the poor inventor, struggling in his basement workshop. But in this technological age, six out of ten patents go to commercial companies that reap profits from their inventions and can easily afford to bear full patent costs.

Bell Telephone laboratories, for instance, was granted a patent last year for an elaborate electronic machine. The application was so thick and complex that it came to be known around the patent office as "jumbo."

To examine it, the government had to hire a special electronics engineer, one of the few in the country capable of understanding its design, circuits, and formulas. The patent office also engaged in seemingly endless correspondence with Bell technicians.

Just to print 100 copies of the patent, as required by law, cost the taxpayers $4,141.62. Patent examiners estimate that the time put in by the specialist and his technical aides must have added an additional $5,000.

This case multiplied by others like it cost the taxpayers $13,431,992 last year above the income from patent fees. All but a few dollars went to benefit compaines that are less needy than most taxpayers.

Many attempts have been made to remove the patent burden from the taxpayers' backs and place it on the companies where it rightly belongs. The proposed reforms would exempt the basement genius, if he could prove his poverty, from paying any fee at all. But each attempt has run into the formidable Texas opposition of Lanham and Rayburn.

Guest Editorial

CHRISTIAN SCIENCE MONITOR: **Quiet, Please.**—What many visitors to the United States regard as the uninhibited noisiness of the nation has been slightly restrained in New York City as a result of a court case. This brought a victory which seems to have surprised the winner more than anyone else.

A young woman who works as a secretary was kept awake at night by sounds of construction of a new building. She appealed to the court to prevent this noise outside normal working hours. Her lawyer appears to have been less astonished at her victory than she, knowing as he did that hundreds of people in the neighborhood were being disturbed.

The outcome of the case may encourage people by the hundreds in other neighborhoods and other cities to hope that their rights to protection against unnecessary noise will be respected if they assert them. Improperly equipped monster trucks griding gears or tearing the night with their raucous exhaust pipes, taxi drivers signaling one another with their horns or playing their radios at street corner taxi stands long after midnight, all sorts of motorists who let out their impatience with the driver-in-front by blasting at him with their horns—these add perhaps as many destructive decibels as do the more legitimate activities of building engineers.

In Paris, once the most cacophonous of world capitals, the blowing of automobile horns is prohibited night or day, and with reported improvement in traffic safety. In London's Mayfair section, horn blowing is prohibited after eleven o'clock at night. New York has for some time been enforcing a law against unnecessary honking.

But in some other cities, even Boston, a court case or two like that just concluded in New York might be followed by a golden silence.

For Better English

Yale University has been given $1 million by a grateful alumnus to stimulate greater command of the English language. The money will also be used to establish a new professorship in rhetoric.

It is about time that our colleges pay more attention to the use of good grammar both in speech and writing, but the emphasis should start at home and in the elementary grades.

A child's conversation these days consists largely of what he learns in television commercials, westerns and gangster shows. The beatnik craze has captivated the teenagers and young adults.

The money at Yale will help only a few. Those few will be small groups of undergraduates interested in writing who will be encouraged and taught by selected outstanding creative writers. Some improvement in the writing of English may trickle down to the masses, but improvement in speaking, writing and reading should be far more extensive than a few courses at Yale University, but cheers for the generous alumnus who saw the need and provided the funds.

Kennedy Adopts Johnson's Action Plan

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — President Kennedy is following the Lyndon Johnson plan for getting things done.

It's simple: Use the modest approach which asks for less than everything.

Vice President Johnson used it repeatedly when he was the Senate's Democratic majority leader from 1954 through 1960.

He avoided asking action on all he might have requested in order to avoid arousing extreme opposition which might have resulted in no action at all.

While this may have created an image of Johnson as a reasonable middle-roader, his critics complained he settled for too little.

But he did get action which otherwise might have been impossible.

One good example: He got through Congress this century's first civil rights bills over Southern Democratic opposition which, however, was mild. But so were the bills.

Kennedy, whether or not Johnson persuaded him to the same kind of course, has stopped short of going all-out in the programs he has asked Congress to approve.

For example: On his requests for a boost in the minimum wage and federal aid to education.

Already he is being criticized for not asking more. The AFL-CIO has complained his economic recovery plans are fine so far as they go but don't go far enough.

This is a sample of where Kennedy stopped short of all-out:

He asked that the minimum wage be raised from its present $1 an hour to $1.15 this year and to $1.25 in a couple of more years.

He could have asked for $1.25 an hour this year. And that raises a nice point about Kennedy's dealings with Congress.

Almost anything he asks is going to be compromised and watered down to some extent. So the question has been asked: Why didn't he ask for $1.25 an hour now?

If there was a compromise then, by asking $1.25, he'd stand a better chance of winding up with $1.15 than if he asked, as he did, for $1.15 in the beginning.

Kennedy's modest approach might be explained this way although he might have a different explanation:

Since he's dealing with a Congress where the conservatives dominate, he thinks his chances for any action at all are better if he's rather conservative, too.

No matter how he looks at it he is a man running an obstacle race on practically every major item he has in mind.

Take his program for federal aid to education:

Catholic spokesmen are unhappy that he hasn't requested some of the aid for parochial as well as public schools. But conservatives of both parties don't like the idea of federal aid to any kind of schools.

And he's up against the racial question on this one, too.

If he and his administration insisted that federal aid be withheld from schools which haven't desegregated, he'd encounter solid Southern opposition; enough perhaps, when added to all the other opposition, to kill the bill altogether.

Apparently his administration won't insist on withholding federal aid for racial reasons. But failing to take this stand will bring him criticism from Negro leaders.

By next summer, when Congress finishes up, Kennedy will know whether his mild approach can get the kind of action he wants.

If not, then his second year in office may find him a lot more demanding in his relations with Congress than he shows signs of being in 1961.

Looking Backward...

TWENTY-FIVE YEARS AGO

Walter Kennedy, Jr., and C. R. Bothwell, Jr., were among seven students of Missouri Valley College, Marshall, who were initiated into the Sigma Gamma chapter of Sigma Nu fraternity.

FORTY YEARS AGO

The Sedalia High School Spizerinctum girls gave a play, "The Magic Mirror," in the school auditorium for the benefit of the S.H.S. Athletic Association. Members of the club participating in the play were: Nona Lee Elliott, Ruth Hay, Marjorie Clinton, Jennie Luckett, Hazel Gray, Ernestine Thomson, Pauline Bruner, Dolly Scott, Opal Nelson, Marian Letts, Robin Raines, Ladye Cannaday, Opal Monsees, Dorothy Keens, Rose Hanlon and Nellie Mae Wallace.

What They Say in Letters to Editor

LOUIS S. PAYTON (410 South Grand Ave.) — **Open Letter To The Water Users of Sedalia:** — Monday night on the ten o'clock newscast, in which the reporter on Channel 6 described the council meeting, his closing remark was as follows: "Not a voice was raised in defense of the present water board." This sounds to me like an indictment for those who want to keep the present water board intact, and I believe it is now time for us to "stand up and be counted."

The Mayor and City Councilmen as individuals are successful businessmen, so I find it hard to believe that they would try to wreck the present set-up and, in effect turn it over to those who sponsored the petition. However, I am sure they would feel much better about it if they could have the support of other responsible citizens of Sedalia.

It is my opinion that this entire affair started when an attempt was made by some fishermen to have the Spring Fork Reservoir opened for recreational use, and I agree that it is difficult to explain why other cities are permitting their water reservoirs to be used for fishing, duck hunting, and boating, when they cannot do so in Sedalia. Actually, the local water department cannot permit such to be done without the approval of the State Division of Health, and their approval is based on the adequacy of the water treatment plant to treat polluted water on a sustaining basis. The Sedalia plant, at the present time, is not so equipped.

If the officials of Sedalia should arbitrarily disobey the Division of Health regulation, it will undoubtedly result in the removal of the Sedalia water system from the Division of Health approved list. This would then allow the bondholders to repossess the Sedalia water system, in order to protect their investment. I am sure no man wants that to happen, but continued apathy on the part of the water users of Sedalia could result in such a disastrous event.

It is not my intent to reproach the signers of the petition presented to the council, because under our democratic system, it is necessary for all different viewpoints to be heard. However, I think it is now time for other people to be heard who are in support of the officials of the water department.

Representative Hall Gets Empty Envelope

WASHINGTON (AP) — Rep. Durward G. Hall, R-Mo., Wednesday opened an envelope addressed to him and bearing a return address of the internal revenue service, Kansas City and there was nothing inside.

Hall wrote the Kansas City IRS office: "I am enclosing a letter that your office sent me. The envelope contained nothing. I am returning it in case you want to try again."

LITTLE CHATS ON PUBLIC NOTICE

by
JAMES E. POLLARD
(Copyright 1960)

"JOHN DOE" ANNOUNCES

As a social item a Down East weekly newspaper some time ago reported that "Robert G.N. . . . announces the marriage of his mother, Mrs. Florence S. N. . . . to Mr. Harold H. H. . . .," etc. In itself, this was not unusual except that the announcement was made by the son. Ordinarily such announcements are made by parents, if living, or by a brother or sister, if any.

Long established custom had decreed other kinds of personal and social announcements. One of the most common of these is a birth announcement. Another is when an engagement occurrs or, in business and professional life, when a partnership is formed or there is a move to a new location.

These personal announcements are somewhat on the same order as public notices, which are provided by law. Only there are many more kinds of the latter and they often concern or affect more people, particularly where their rights or interests are involved, as is usually the case.

Long experience has shown that the newspaper of paid general circulation is the best general medium for public notices. The bona fide newspaper gives wide coverage and at minimum cost. This is why the laws of all 50 states provide for many kinds of public notices to be given in this manner. The public notice is part of due process and helps to contribute to the democratic process.

We, the Women

How Our Attitudes Have Changed! Recall These?

By RUTH MILLETT
Newspaper Enterprise Assn.

Do you remember when—

A husband expected a night out "with the boys" now and then but no wife in her right mind demanded an occasional evening "with the girls"?

College girls thought they had to choose between marriage and a career instead of assuming that a job and marriage go together like a horse and carriage?

A woman who had a household allowance was considered lucky, instead of underprivileged for not having a joint checking account?

Saying, "I love the color of your hair" to a woman who was helping nature out a bit would have been considered the height of cattiness instead of a frank compliment?

Junior's misbehavior at school was a matter to be settled between Junior and his teacher—and not through a conference with his mother?

A young man waited to propose to a girl until he could answer with "yes, sir" the first question he knew her father would ask: "Can you support my daughter?"

Children were more familiar with the command, "You'll have to ask your father" than "Go ask your mother; she's the boss?"

Families sat for a long time talking at the dinner table because there was no TV program some member of the family couldn't miss?

A housewife would have preferred to be known as "a good manager" than as a "community leader?"

A husband who never wanted to go anywhere was praised for being a "family man" instead of low-rated for being anti-social?

Parents blamed their children when they did wrong, instead of blaming themselves?

Remember?

Project Mercury

By Cyrene Dear
(DP&R Special Service)

WASHINGTON — Just as Columbus, Magellan and Alexander dreamed of new worlds to conquer so today's scientists dream of a new world in outer space.

George M. Low (what a name for a man with such lofty ambitions), chief, Manned Space Flight Program, National Aeronautics and Space Administration, is one of those practical dreamers.

It is the civilian space agency, and for the current fiscal year Congress has allocated $109,525,000 for research and development and 15,000,000 for construction and equipment.

Project Mercury is not just a scheme to beat the Russians in getting a man into outer space. "When an astronaut finally makes the historic flight, said Mr. Low, it will be when we are convinced it will be when we are convinced that our previous experiments justify it and his safe return to earth."

Project Mercury is a research and development program classified into four categories.

First, the creation of the scientific instrumental satellites, the ones hat have been making space measurements. "From these satellites," said Mr. Low, "we hope to travel around the planets, over and on the moon and find out what form of life exists beyond the terrestrial sphere."

Second, Satellite Application, learning how the space discoveries can benefit us on the earth. "Much has been learned in the experiment Tiros, with the pictures taken of the clouds which helped in predicting the weather. We are anticipating further weatheir information from similar experiments" he said.

Third, the communications satellite in which the "Echo" was so successful. This was a hundred foot balloon which bounced radio signals back to earth. This offers tremendous opportunities in telephone and television. "Right now," said Mr. Low, "the trans Atlantic cable is over taxed, and television pictures cannot be transmitted, but the time is not far away when telephonic messages and television pictures will be accomplished by satellite communication."

Fourth, man's exploration with space. The goal of Mr. Low's program is sending a man into outer space. The preliminary program leading up to this astronomical feat has taken about two years. The wind tunnel experiments, the flight tests, the escape system and many other tests have been made to assure the safe return of the astronaut.

The capsule in which the man rides, resting on a couch-like seat, is a large cone shaped object. When the satellite is launched into orbit it sits on top of a booster with the small end pointing upwards. When he capsule returns to earth, it will fly with the blunt end pointing forward. When the capsule re-enters the atmosphere, the astronaut will be pressed back upon the couch with eight times for force of gravity. Communications system and manual altitude controller will aid and protect the man. He will be in a weightless state when he reaches outer space.

The flight will last four and a half hours. There are eighteen stations around the globe where messages will be relayed. The astronaut will be traveling 17,500 miles an hour. By reducing this only 350 miles, the gravity of the earth will slowly pull the capsule back down out of orbit.

There have been several vehicles used in major rocket tests; the five little joes, (the No. V capsule did not separate) the Atlas Big Joe, the Mercury Atlas I, (destroyed) Mercury Redstone I (not achieved) and Mercury Redstone I Repeat.

Where will the astronaut land and how will he be found? He will take off from Cape Canaveral and the 18 stations will keep an accurate record of his whereabouts and he will land within 100 to 150 mile radius of a ship in the Atlantic Ocean. It is expected that the man will come back in as good condition as the "Chimp" and be able to relate his experience.

It was hard to get down to earth after talking to Mr. Low, but he is a very earthy man. Born in Austria and educated in England and this country he is an aeronautical engineer. In his middle thirties he is tall, slender, good looking and rather shy. He lives with his wife, Mary, and four active children in an ultra modern house in Bethesda, Maryland. He has been with Project Mercury since its inception, two years ago. Whether raking leaves, shovelling snow, putting the children to bed, or working quietly in his book lined office, this modern young man has his feet on the ground, but his head always above the clouds.

Carving a Standing Rib Roast

Practice is necessary to the art of carving meat. Sharp tools are essential. To prevent scratching of a valuable platter or tray and to help prevent slipping—have a board cut to fit the platter or tray.

Whether you carve the roast in the kitchen or at the table it will help to remove the short ribs and back bone in the kitchen.

Place the roast on board on the platter with a small cut surface up and the rib side to your left. Insert the fork firmly between the two top ribs, the slices are made from ⅛ to ⅜ inches thick and are started from the farther outside edge across the grain toward the rib. Release each slice by cutting close along the rib with the knife tip after cutting. Lift the slice on the blade of the knife to platter or extra side of the platter.

Know the Steaks You Buy

Steak is a piece of meat—one to two inches thick, usually cut across the muscle fiber. It is usually best in quality and lowest in price from January through April. All steaks are flavorful and popular. Most of them are quick, easy, but relatively expensive main dishes. Flank, minute and cube steaks are usually sliced very thin or scored to cut the fibers and make the meat tender enough to broil or pan broil.

Round Steak—Little fat or bone. Top round is the most tender. Bottom round is square shaped and coarse in texture. The eye of the bottom is the smallest muscle and is good for cube steak.

Porterhouse or T-bone — The name depends on the size of the tenderloin. When cut 1½" thick it weighs 2½-2 pounds and serves three or four people.

Sirloin—The largest loin steak usually most economical for family of four or more. There are four or five steaks each differing in shape, size and amount of bone because each steak is cut across a different section of the hip bone.

Filet Mignon—The tenderest of all muscle is boneless and tapering—18 to 24 inches long—weighs five to six pounds tenderloin. The individual filet mignon is usually wrapped with bacon to broil.

Club or Rib Steak—A rib bone but no tenderloin with bone removed—sold as "rib eye" steak. A one inch thick steak weighs about 1½ pounds.

Chuck Steaks—Arm and Blade—Suited to braising. Blade steaks always have blade bone in them. Arm steaks have large amount of lean.

Recipe Using Beef
Sukiyaki (for 8)—Japan

2 tbsps. salad oil
1½ lbs. bottom round steak
¼ cup sugar
½ cup soy sauce
½ cup mushroom water
2 medium onions, sliced thin
1 green or red pepper chunks
1 cup celery, sliced diagonally in 1½-inch strips
1 (10-oz.) can water chestnuts or bamboo shoots, sliced thin
1 can (8-oz.) mushrooms, sliced thin
Fresh or frozen spinach, bite-size pieces

Steak should be sliced wafer thin in pieces about two inches long and ½-inch wide. (It slices more easily when partly frozen or use the packaged ready quick sandwich steaks.)

Heat oil in skillet. Add meat and brown lightly. Mix sugar, soy sauce and mushroom stock. Add half of this to the meat. Push meat to one side of pan and add sliced onion, green pepper and celery. Cook a few minutes. Vegetables should be crispy. Add rest of soy sauce and liquid, bamboo shoots and mushrooms, and spinach. Cook three to five minutes. Stir well and serve immediately with hot rice and cucumbers in sour cream. (Brown meat at 375 degrees. Cook vegetables at 225-250 degrees.)

Kansas' Cats in for Third Crack at NCAA Cage Title

Shrug Off a Slow Start, Then Defeat Arch-rivals

(AP)—Count Tex Winter's Kansas State Wildcats in for their third crack in the last four years at the NCAA basketball championship.

The Wildcats, bidding for their fifth Big Eight title in Winter's eight seasons as head coach, just about put away the NCAA berth Wednesday night when they shrugged off a slow start and whipped arch-rival Kansas, 81-63 at Manhattan, Kan.

The Cats and the Jayhawks, who beat 'em out for the tournament spot in a playoff last year, are tied for the conference lead now with 8-2 records with Iowa State and Colorado, both at 5-5, the closest challengers. But Kansas is out of tournament consideration this year and next because of probationary action by the NCAA. And with a three game lead with only four left, including home matches with Missouri, Nebraska and Colorado, it doesn't seem possible for the Wildcats to miss.

St. Joseph's (Pa.) moved within one game of nailing the Middle Atlantic Conference's NCAA berth and NIT entries Dayton and DePaul won major tests in other features of the Wednesday program.

St. Joseph's pulled away in the late going for a 92-67 rout of Bucknell.

Dayton, pushing its winning streak to six for a 17-6 record, routed Xavier of Ohio, 94-71 as Garry Roggenburk scored 24. DePaul, trailing at halftime, fired in 12 straight points soon after the intermission and downed NCAA-bound Louisville 75-67.

LaSalle and Seattle, a couple of tournament possibilities won again—the LaSalle Explorers (14-5) thumping Lafayette 104-86 and Seattle (15-7) snapped Idaho State's 11-game winning streak, 64-57.

Clyde Rhoden took 11 shots, hit 10 as Arkansas won a Southwest Conference game from TCU 96-76. Maryland won a 77-62 Atlantic Coast Conference victory over Virginia.

Two of the nation's top ten scorers had big nights. East Tennessee's Tom Chilton, who ranks No. 2 with a 31.5 average, scored 35 points and plucked 21 rebounds in an 82-79 triumph over Wofford. Gettysburg's Ron Warner set a school career record of 1,155 points although he's only a junior—netting 30 in an 87-60 rout of Elizabethtown (Pa.)

Florida, challenging for the Southeastern Conference's NCAA berth, nipped non-leaguer Florida State, 75-74, and soph Bill O'Connor's 34 points led Canisius' 83-78 whipping of Syracuse.

Veteran Ball Players Wait For Training

By THE ASSOCIATED PRESS

Althoulh the spring training season is just starting, veteran ball players apparently can't wait to get into camp — where the meals may be skimpy for overweight athletes, but they're free.

Among Wednesday's early arrivals were Willie McCovey, who reported with the first contingent of the San Francisco Giants at Phoenix although he's not due unil Monday, and Brooks Robinson of the Baltimore Orioles.

Robinson, seven pounds overweight, is one of ten Oriole infielders and outfielders who joined the squad at Miami in advance of the March 1 reporting date to receive special conditioning. McCovey, rookie of the year in 1959, wants to keep his weight at the present 202 pounds.

McCovey was one of 14 Giants who reported to their new manager, Al Dark. Pitchers Mike McCormick and Stu Miller and catcher Hobie Landrith were the only other regulars.

Sixteen Cincinnati Reds' pitchers turned out for the opening workouts at Tampa and Manager Fred Hutchinson said one or two may become starting pitchers. Best bet appears to be Joey Jay, who came from Milwaukee in a trade. Hutchinson figures on Bob Purkey, Jim O'Toole, Jay Hook and Jim Maloney as regular starters.

The champion Pittsburgh Pirates had only one player, first baseman Dick Stuart, still unsigned as their batterymen began drills at Fort Myers, Fla.

Two of the top rookie prospects in the New York Yankees camp aren't expected to make the team this year unless they can show enough to catch on as regulars. Pedro (Speedy) Gonzales, 22, a second baseman has lived up to his impressive minor league record so far, but he probably will wind up with the Richmond, Va., farm club, where he can play every day. His camp roommate, catcher Jesse Gonder, is more or less in the same position.

The Milwaukee Braves, opening their camp for batterymen today with veterans Lew Burdette and Don McMahon still unsigned, indicated they're still after relief specialist Dick Farrell of the Phils.

Bonnie Gym Often Called A Snake Pit

OLEAN, N.Y. (AP)—The basketball court in the Olean Armory, home base for second-ranked St. Bonaventure, is regulation length and almost regulation width. But the shallow bleachers on the sides and the deep stands at the ends give it the feel of a long hall.

Smoking is not allowed. So at halftime, the entire crowd of 2,000 pushes out into the small foyer an lights up. It gets kind of close, so somebody opens the front doors This blows all the smoke back into the gym, and when the teams return to the floor they need radar to find the bench.

With a nervous laugh, they call it the snake pit. It's only a slight exaggeration. The Bonnies haven't been beaten here since 1948—98 games ago.

Siena is expected t become the 99th victim toninght. And Saturday night comes the century figure.

There's something decisive about the number 100. It's got to be mighty close to the longest home winning streak in major college basketball history. Maybe, in fact fate never ordained it. And if that isn't enough, the opponent is Niagara, the last team to beat the Bonnies in the armory thirteen years ago.

Local fans claim the Bonnies themselves never play a really good game here. The team prefers the first-class comfort to Buffalo's Memorial Auditorium, where most of the home schedule is played. But nobody can deny the shock value of the armory as a home club weapon.

Entrants Take Advantage Of One Day Delay

BATON ROUGE, La. (AP) — With some sunshine expected to help dry out the Sherwood Forest Country Club course, entrants in the $20,000 Baton Rouge Open today took advantage of a day's delay in starting the tournament to get accustomed to the course.

The 72-hole event was due to start today but officials delayed it 24 hours because of weather conditions. It will run through Sunday.

Heading the field will be defending champion Arnold Palmer, fresh from his victory in the Phoenix Open, and the venerable Sam Snead, who set the tourney record here of 275 when he last competed in the event in 1953.

The winter tour's leading money winner, Gary Player of South Africa, will play in a threesome with 1952 winner Jack Burke Jr. and former LSU star Johnny Pott of Shreveport.

Santa Anita Field Entries Shaping Up

ARCADIA, Calif. (AP)—A field of about 11 shaped up today to run in the guaranteed $145,000 Santa Anita Handicap Saturday, with Prove It the probable odds-on favorite.

Expected to be named today were American Comet, Tompion, New Policy, Sea Orbit, Prince Blessed, Grey Eagle, First Balcony, Free Copy, Top Caliber, Oink and Prove It.

Prove It, from the stable of Rex Ellsworth which raced the great Swaps several years back, has been beaten only once in nine starts.

The 4-year-old Prove It won the $100,000-added Santa Anita Maturity in January and handicappers predicted he will go to the post at odds as low as 3-5.

New York Rangers Drowsy After Dark

By THE ASSOCIATED PRESS

Those New York Rangers are early risers who do all right in the afternoon, but tend to get drowsy if they're called on to play too long after dark.

By defeating the third-place Chicago Blackhawks 4-2 Wednesday, the Rangers remained unbeaten in their three daylight games. They tied the other two—2-2 against Detroit in January and 3-3 against the Montreal Canadiens Feb. 11.

The victory put the Rangers eight points behind the fourth-place Detroit Red Wings and kept them mathematically in the race for a playoff spot.

Johnsons Help Hubbard To Victory

The Johnson brothers, Ronald and Enos, virtually carried the Hubbard High Tigers to a 78-41 slaughter of Urich in the Warrensburg Class "S" Regional Tournament Wednesday night. It also marked the Tigers' 19th win of the season. They have two losses.

Both Johnsons scored 20 points. Ronald is apparently continuing along his point-producing ways. He has 63 points to his favor in this tournament alone, scoring 43 Monday night. He carries a 27-point average for the 21 games Hubbard has played this season.

The Tigers opened the game with an 11 point edge at the end of the first period, and Urich never threatened. Also scoring high for Hubbard were Leroy Cole with 18 points, and Marvin Sims with 10. For Urich it was Urton with 14 and Grimes with 10.

College High defeated Garden City and Hughesville whipped Green Ridge Wednesday night, but no final scores were available.

The Tigers collected their 78 points on 36 connections from the field and six good charity tosses. They committed 14 fouls. Urich, seeded seventh in the tourney, collected 15 field goals and 11 free throws. Urich out-distanced the Tigers in free-throw accuracy, but it wasn't enough to even match the Johnsons.

The Tigers face College High in the semi-finals tonight at 9 p.m., and should they win, they will go to the finals.

Score by quarters:

Hubbard	20	17	20	21—78
Urich	9	14	7	12—41

Scoring: Hubbard — Leroy Cole 18; Ronald Johnson 20; Glenn Whitney 8; Ernest Wyatt 2; Enos Johnson 20; Marvin Sims 10. Urich — Grimes 10; Kelsay 14; Barth 6; Mendenhall 2; Winkler 2; Brown 2.

Time Is Running Out for Cincy's Quest for Berth

By THE ASSOCIATED PRESS

Time is running out on the Cincinnati Royals in their quest for a National Basketdall Association postseason playoff berth.

The Royals, last in the Western Division, lost ground to both the second-place Los Angeles Lakers and third-place Detroit Pistons Wednesday night. The first three finishers in each division qualify for the playoffs.

Cincinnati dropped a 132-131 decision to the Philadelphia Warriors in the opener of a doubleheader at Detroit. The Pistons then broke a seven-game losing streak in the second game, downing the New York Knicks, 123-117.

The Lakers kept pace with Detroit, whipping the Boston Celtics 105-93 before 13,401 fans—the largest crowd ever to see a pro basketball game in Los Angeles.

The Lakers remain a game ahead of Detroit and the Pistons are two games in front of Cincinnati. The Royals have only 8 games remaining while Los Angeles and Detroit have 10 left.

Harvey Favored In Tournament Of Champions

ST. AUGUSTINE, Fla. (AP) — Bill Harvey of Greensboro, N.C., runner-up in the Tournament of Golf Club Champions last year, was favored to finish first as match play began today in the 29th annual tourney.

Harvey won medal honors with 138 for 36 holes—shooting a four-under-par 67 in Wednesday's second half of the qualifying round. He battled strong southerly winds as well as a select field of challengers on the 6,585-yard Ponce De Leon course.

Ed Brantley of Signal Mountain, Tenn., finished second with 72-68—140 but withdrew from the tourney, saying personal affairs required him to leave.

First-day leaders Larry Beck of Kingston, N.C., and James Paul of Delray Beach, Fla., strayed over par in the second half of qualifying play. Beck finished third with 68-74—142. Paul had 68-75—143, tied with Bob Tomlinson of Jacksonville, Fla., who shot 69-74.

Harvey's first round foe was Roderick Sears of Bryn Mawr, Pa., who qualified at 77-73—150.

Versailles, Eugene In Semi-finals

Eugene and Versailles advanced into the semi-finals of the Tipton Regional Class "M" Tournament on the strength of a 62-45 victory by Eugene over Osage and a 65-54 win by Versailles over California.

In the Eugene-Osage encounter, Eugene clearly had control throughout the game, jumping off to a 16-10 lead in the first period, building it to 38-22 at half time and then fattening it to 49-25 at the end of a third period which saw Osage score only 3 points while Eugene picked up 11.

Osage put 10 men in the scoring column in a losing battle. The 10 were led by Rieder with 12 points and C. Vaughn with 11.

High point man for the game was Eugene's Gretlein with 22. He was seconded by Morrow and Morris, each with 12.

Led by a 23-point scoring performance by Finley, Versailles had a come-from-behind battle to gain a victory over California.

The California cagers held a 18-11 edge at the end of the first period and led 26-20 at halftime.

Things were all tied up at the end of the third quarter, 41-41. Then Versailes put up a strong offense in the final stanza to outscore California 24-13 for the winning margin.

Part of American Boyhood Lost in Death of Gilbert

By JULES LOH

NEW YORK (AP)—"One night I went up to the attic and messed around," wrote Stephen Smith of Gettysburg, Pa. "Then I saw a funny thing. I didn't know what it was.

"I opened it and it came to my mind it was an Erector set. When my father was a little boy he had an erector.

"For Christmas I wished to have an Erector and a microscope and a lab set. And ever since then I did many things with both."

The youngster's letter, sincere if not altogether grammatical, didn't differ much from more than a million others written to A. C. Gilbert over the years, which shows that when he died Jan. 24 a part of American boyhood went with him.

With Gilbert's death, leadership of the company passed to his son, Alfred Carlton Gilbert Jr., who says he'll "make every effort to continue to create" the same type educational toys his father made famous.

In his later years, the elder Gilbert went to the office only three days a week and concerned himself mainly with choosing new toys to add to the existing line of 51 different sets in 11 science categories.

Among the new favorites are a electronics set with which boys can build transistor radios, burglar alarms and other gadgets; and a physics set which teaches the principles of hydraulics and other scientific subjects modern boys are amazingly familiar with.

But none of Gilbert's inventions (he owned more than 150 patents) has had the success of the Erector — the original do-it-yourself gift that not only has occupied many a boyhood hour but also launched many an adult career.

"If you had read the hundreds of letters I have received from engineers who tell me their interest in their profession started with an Erector set," Gilbert once wrote, "you would know I had done something besides make money."

More than 10 million boys have owned Erector sets, and who can say how many, like Stephen Smith, have added to the ones passed along to them by their fathers; because the thing hasn't changed a whit since A. C. Gilbert built the first one back in 1913.

Gilbert made friends through his other toys, to be sure, though company spokesmen say Erector represents "a substantial part" of its science toy business.

American Flyer electric trains account for one-third of the company's income and science toys two-thirds.

Gilbert insisted all his toys "had to do something." He would not allow his model airplane to remain motionless on a string. He put a rubber band in it and it flew—opening up a whole new hobby.

But no toy does more than the Erector, nor were its creations confined to the playroom.

The prototype model of the World War II Bailey Bridge was built with a No. 10½ Erector. An Erector was used to design industry's Gantry Crane. The motor and other Erector parts were used to build the first heart-lung machine, now in the Smithsonian Institution. At the A. C. Gilbert Co. factory in New Haven, Conn., baskets constructed from Erector sets carry parts to the assembly line on overhead trolleys.

The thought for the versatile Erector "seemed to come to me all of a sudden in the fall of 1911," said Gilbert, during a time when he was commuting by rail between New Haven and New York. Girders being put up to carry new electric cables gave him the idea.

Gilbert was born in Salem, Ore., Feb. 15, 1884, and tales from his adventurous boyhood read like a Mark Twain novel. The family barn was his haven, and was where his inventive knack began to bud.

He once rigged a fire house pole from the loft to the floor, for example, and the first kid to slide down landed on a lever which flung open the door. One day his father, alerted by a gathering crowd, snatched young Alfred from an upper window seconds before he was about to demonstrate Salem's first parachute jump.

Gilbert was slightly built—5 feet 7 and 135 pounds in his prime—but was wiry and strong and took offense at biographers who described him as a "frail" boy.

In college he became captain of the track team, a star football quarterback and a wrestling champion. In 1908 he won the Olympic pole vaulting championship and set a world record (since broken).

When he decided he would like to become a physical education instructor he felt he should have a medical degree. He set out to get one at Yale, and helped pay his way by giving magic shows from a kit he had put together.

In 1909 he put on a demonstration in a variety store hoping to sell a few kits for Christmas money, and got orders for $600 worth.

"I sat right down and multiplied this figure by all the book stores, toy stores and department stores in the United States," he said, "and knew that I was soon going to be a millionaire."

He borrowed $5,000 from his father and opened the Mysto Manufacturing Co. in an old New Haven carriage house. When he introduced his educational line of toys he changed the name to the A. C. Gilbert Co.

Today it is a $20-million concern which no longer features magic tricks, but continues to work magic in the hearts of boys.

Okays $495,000 For Emergency Government Site

WASHINGTON (AP) — Director Frank B. Ellis of the office of Civil and Defense Mobilization conditionally agreed Wednesday to authorize a federal contribution of about $495,000 in constructing a new emergency operating center for Oklahoma's state government.

The Oklahoma congressional delegation, after a two-hour conference with government officials, said Ellis agreed to authorize the federal assistance if state architects would redesign the center to conform with Civil Defense requirement. It would be built in Oklahoma City.

Ellis said he reached the decision after determining that Oklahoma had a strong moral case for federal participation. He said a decision to participate was in accordance with announced policies of the Kennedy administration to implement as expeditiously as possible the construction of joint federal-state projects.

Sedalia Lady Wears Badge With Story

Mrs. Eugene Cook, 1615 West Tenth, proudly wears a replica of a mended heart, a symbol of the Mended Hearts, Inc.

Mrs. Cook, as a child, had several attacks of rheumatic fever which damaged the valves of her heart. On Feb. 6, 1954, she underwent major heart surgery at the Mayo Clinic. Then in 1957 she received an application from Miss Gladys Swarthout, who also had undergone heart surgery, to the Mended Heart Club. Mrs. Cook joined the club gladly.

Mended Hearts is an affiliation of persons throughout the world who have undergone heart surgery and was organized in 1951 by a group of four post-surgery heart patients who were in the hospital in Boston at the same time. They wanted to share their happiness with those who were about to take the same step.

The objectives of the organization are to visit and encourage, with the approval of the physicians, persons anticipating or recovering from heart surgery, to distribute information of specific educational value to Mended Hearts and to potential heart surgery patients, and to establish a program of assistance to surgeons, physicians and hospitals in their work with heart patients.

The slogan of Mended Hearts is "It's great to be alive — and to help others."

"God has given our generation so many wonderful things," Mrs. Cook said. "During our lifetime the advancements in research and medicine have been tremendous. No one can appreciate this more than we who have reaped the benefits of this research." She would appreciate hearing from anyone interested in becoming a member of the Mended Hearts, Inc.

On Heart Sunday, Feb. 26, when neighborhood volunteers knock on doors in the community, give generously. It will be well to remember Mrs. Cook, and the Mended Hearts, Inc., as well as those who have various kinds of heart ailments, for it is research that will help those who need help today, and through the tomorrows, with no one knowing who those tomorrow might be.

Lamb Production Up Under New Program

WASHINGTON (AP) — Production of lambs has increased sharpest in the west north central states since the enactment of the government's wool incentive program in 1954.

The program is designed to encourage increased production of sheep and wool by means of government payment.

A government report showed today that production of lambs was 18 per cent higher in the west north central states in 1960 than in 1955. The increase for the nation as a whole was 4 per cent. The west north central states include Missouri and Kansas.

Gets Top Price For Load of Hogs

C. Von Holton and Son of LaMonte trucked 12 of their Hampshire-Yorkshire cross hogs to the Kansas City market Feb. 21, which averaged 220 lbs., and were sold by John Clay & Company, their commission firm, at $18.75. This was the highest price paid for hogs there that day; in fact, of the 3,200 hogs on offer only 41 head reached this figure.

Ribs of Beef Back on Top At Markets

By THE ASSOCIATED PRESS

Ribs of beef return to the top spot among meat bargains this week.

In a sharp reversal from last week's emphasis on fish, coincident with the start of Lent, supermarkets and neighborhood stores in the East, Midwest and Far West offer rib roasts as their weekly special. One chain offers the 10-inch cut at 49 cents a pound and 7-inch cut at 57 cents a pound in the New York metropolitan area. That's roughly 20 cents below year-earlier levels.

Part of the reason for the price cuts is to sharpen demand during Lent. Another reason may be that cattle coming to market recently have been bigger than usual, reflecting cheap and abundant feed.

Leg of lamb is featured in a few areas, with similar price slashes of 20 cents a pound from a year ago at 49 cents a pound and 55 cents a pound for oven-ready cuts. Inexpensive pork cuts such as butts, shoulders and smoked picnics are features in other areas. Fish specials include halibut steak, cod steak and swordfish.

Price advances of 2 to 4 cents a pound make frying chickens unattractive as a bargain item.

Topping the best buy list among vegetables this week are beets, broccoli, cabbage, cauliflower, Florida celery, endive, escarole, iceberg lettuce, medium yellow onions, parsley, peas, potatoes, radishes, rhubarb, tomatoes and the orange Jersey variety of sweet potatoes.

Good buys include artichokes, beans, carrots, cooking greens such as collard, mustard and turnip tops, spinach, corn, green onions, leeks, mushrooms, large yellow onions, peppers, squash, watercress, turnips and rutabagas.

Grapefruit and oranges reign supreme among fruits. Good buys include MacIntosh, Rome, red and golden Delicious apples, avocados, limes, small pears and coconuts.

Labor Lobby Seeks to Aid Health Plan

By NORMAN WALKER
Associated Press Labor Writer

MIAMI BEACH, Fla. (AP) — Organized labor is launching a big lobby organization with interested outsiders to help put over President Kennedy's Social Security health aid plan for the aged.

The AFL-CIO announced Tuesday it is combining forces with others supporting the plan to combat opposing drives by the American Medical Association, the American Bar Association and such business groups as the U.S. Chamber of Commerce and National Association of Manufacturers.

Kennedy has proposed an extra quarter-cent payroll tax on workers and their employers to finance an aged health plan added to the Social Security system. This would replace the program adopted under former President Dwight D. Eisenhower's administration to finance health benefits for the aged out of the U.S. Treasury.

George Meany, AFL-CIO president, said in announcing the new organization to push for the Kennedy plan, that financing health benefits for the aged through Social Security would enable workers to buy insurance against health costs in their advancing years.

"Most people retire on small savings and a modest pension," Meany said. "In most cases they can't afford to be sick."

Kennedy's Social Security financing plan has been attacked by the medical association and other organizations as a step toward socialized medicine, a contention hotly denied by the AFL-CIO and other Kennedy plan advocates.

The AFL-CIO Executive Council announced plans to divert a minimum $1 billion in union funds from stocks and bonds to reinvest in middle-income type home mortgages. Meany indicated the sum could be a great deal more.

The plan is to use union treasury funds, as well as multimillion-dollar welfare and pension funds, where possible, in promoting lower mortgage rates for middle-class home owners and to stimulate the lagging construction industry.

The AFL-CIO has established its own investment department to channel union funds into the home mortgage field, which Meany said is now dominated by high interest rates and a discount system providing lenders with bonus payments at the home owner's expense.

French Land, All Is Well On Broadway

By WILLIAM GLOVER
Associated Press Drama Critic

NEW YORK (AP)—The French have landed, and all's well on the theatrical front.

Unwrapping a bundle of hilarious pranks, the noted Comedie Francaise premiered Tuesday night at City Center for a limited engagement prior to a national tour.

Since being here six years ago, the Gallic troupe has had a government-ordered shakeup. Later in the run, new facets of versatility and range are to be displayed. But for right now, one thing is clear—reform hasn't bruised the comic flair.

The initial bill comprises a pair of short plays by Moliere—"Scapin's Pranks" and "Versailles Impromptu."

As the roguish Scapin, Robert Hirsch scores the personal triumph of the program with a bravura display of slapstick monkeyshines. He earns added credits by doubling as the designer of lively costumes and set for the piece.

In the Versailles playlet, acted in a polished style of classic elegance, veteran Louis Seigner returns. Jacques Charon, another senior of the company, acts in both items, and directs "Scapin's Pranks."

A rapid-fire running translation is provided over radio earphones. But the Comedie Francaise knows how to leap the language barrier without such aids. Just watching is high entertainment.

Also brand new and highly recommended is "Double Entry," a pair of short musicals at the tiny Martinique Theater.

Fresh, funny and fascinating, the bill comprises "The Oldest Trick in the World," a hilarious peek behind the curtains of a fortune-telling parlor, and "The Bible Salesman," a back country Negro fable of touching simplicity.

Author-composer Jay Thompson ranges with delightful results from farce to folksiness, and his music avoids cliche.

It would be hard to imagine shinier performances than those rendered director Bill Penn by each three-player cast. Rosetta LeNoire appears in both.

Clifton City Ladies Card Party Sunday

The ladies of St. Joseph Altar Society and members of the parish held a card party Sunday evening at St. Joseph Hall in Clifton City.

A first of a series of activities to be held to raise money to assist in the building of a new church which was recently destroyed by fire.

A large number of friends from the surrounding areas was present.

Services at the present are being held in the St. Joseph Hall.

Freeman Announces Support for Cotton

WASHINGTON (AP)—Secretary of Agriculture Orville L. Freeman announced Tuesday night grower prices for this year's cotton will be supported at a base rate of 33.04 cents a pound—up .62 cents from last year.

He accompanied the announcement with a guess that the rate—about $3 a bale more than last year—would make neither many growers nor textile mill users of cotton very happy.

There had been pressure from growers and some cotton state congressmen for a larger increase.

Superintendent's Report to the Commissioners of the Sedalia Twelve Mile Special Road District

December 31, 1960

Honorable Commissioners:

Submitted herewith for your approval is a report of work accomplished and disbursements for the year of 1960, by the Sedalia Twelve Mile Special Road District.

In addition to our regular maintenance of all roads and bridges, we laid one complete new floor on the old Dresdent road bridge over Muddy Creek.

We have patched all rural black top roads in the district which were in very bad condition after the heavy snow and ice in the month of March.

We seal coated approximately half of the rural black top roads in the district of which the other half will be sealed in 1961.

Reconstructed one mile of road with new tiles and resurfaced with State specification gravel, known as the Grimes Road northeast of Beaman. Reconstructed with new tiles and resurfaced approximately three and one-half miles of road known as Tevis, Rissler and Oswald Roads.

Reconstructed and resurfaced about one mile of Kam Gentry Road. Resurfaced with gravel about two and one-fourth miles on DeJarnette Road and about one mile on Mt. Herman Church Road. Resurfaced with gravel about one and one-half miles on Leonard Fall' Road.

Approximately thirty mile of other rural roads spotted with new gravel. A great amount of ditch work was done over the district. About fifteen miles of road side improvement was made. Approximately two and one-half mile of brush was cleared. All weeds were mowed regularly. During the year I have used about 12,000 yards of gravel which was state specification and have approximately 11,000 yards of gravel in stock pile.

Rebuilt and surfaced with black-top mat and sealed for city streets which were set up by City Officials.

The Sedalia Twelve Mile Special Road District greatly appreciated the fine cooperation of all land owners who helped to make it possible to accomplish the road improvements during the year.

As Superintendent, I wish to express my thanks to the Board of Commissioners for their fine cooperation during the year.

Respectfully submitted,
Wm. M. McGee, Superintendent.

For Month of January, 1960.

Yen for Repairing Older Houses Has Not Slackened

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—If the demand for new homes has slackened, the yen for fixing up and enlarging present houses hasn't.

Some eager to cater to this trend optmistically estimate Americans will spend a record $21 billion this year on improvements and repairs.

This would help the economy in general at a time when such aid is welcome.

It also would please makers of all kinds of building materials, home furnishings and appliances, as well as architects, decorators and builders. Sharing the boon would be dealers in lumber, plumbing fixtures, paint, and a fairly newcomer to the scene, the operator of home modernization centers.

The trend also would please various purveyors of credit to the masses—for improvement financing can run all the way from government-approved mortgage loans to advances by your friendly banker or finance company officer.

One of the services the home modernization center offers in a single package is that equally modern device, on-the-cuff financing.

The size of this market compares favorably with new housing put in place. Total spending on nonfarm residential construction in 1959 was put at $22.3 billion by the Bureau of the Census. Farm dwellings added another $819 million.

Those close to the modernization market think its growth has been one reason for the slowdown in building of new houses.

The National Retail Lumbermen's Association has been plugging the market, especially since new home building slackened.

Many of its members are getting into the home modernization center business. These are often located on a busy highway with huge signs to lure the passing motorist.

If he stops he's likely to find inside sample kitchen and bathroom layouts, scale models of basement playrooms, sample floor plans and even before-and-after pictures of alteration jobs.

The homeowner explains what he wants, gets a cost estimate, signs a contract—and can get credit arrangements, too. The center then does the rest, from drawing plans, ordering materials and hiring workers.

Sheriff Tells Of His Duties At Club Meet

Sheriff Emmett Fairfax was the speaker at Breakfast Optimist Club Wednesday morning at the Pacific Cafe.

Sheriff Fairfax stated that about a year ago he became interested in running for sheriff, was elected and took office Jan. 1. He went to Rolla to school for a short time before taking office and stated he felt this was very valuable to anyone in police work.

Outlining his duties, Sheriff Fairfax told of the work done by his staff. "This is a large county," he said, "and there is much bookwork." This work and the work in the courthouse is taken care of by E. J. Thomas, he said, and it is important, for if the book work is not right you can get into trouble.

"The sheriff is called for all kinds of things," he went on to say, "and you never know what is going to happen, so you go." We follow all tips, Fairfax said, while they are fresh, because if you wait on anything it may be too late. Sometimes that doesn't seem like it might have any connection with anything else, such as an automobile accident, may lead to the solving of some other criminal act. In telling of burglaries he pointed out that people should keep their houses locked.

The sheriff's office, he stated, has a record of everybody who has commited a felony. They take three sets of fingerprints, one which is sent to the Highway Patrol at Jefferson City, one to the FBI and the other they keep.

Juvenile delinquency is a problem, he said, and they are now keeping a woman prisoner in jail in another town because they have delinqnuents in the women's quarters of the county jail. There is a solid wall between the juveniles and other prisoners.

One of the things hard to handle, Sheriff Fairfax said, is mental cases. It is bad to have to hold people who are mentally ill, which, he pointed out, is a disease and nothing that they have done wrong, in that jail for two or three days before they can take them to Fulton.

Since he has been in office, Sheriff Fairfax said, there have been all kinds of things happen, big, like the arson case, to little things, but all of them need attention.

The meeting was presided over by Al Allgaier, president, who introduced the speaker.

Dr. Donald C. Proctor gave the invocation. Group singing was led by Gerald Cecil with Miss Lillian Fox at the piano.
